TECHNICAL SUPPORT

For additional information contact Leviton’s Technical Support at: 1-800-624-3005 or visit Leviton’s website at www.leviton.com

FOR CANADA ONLY

For warranty information and/or product returns, residents of Canada should contact Leviton in writing at Leviton Manufacturing of Canada Ltd to the attention of the Quality Assurance Department, 165 Hymus Blvd, Pointe-Claire (Quebec), Canada H9R 1E9 or by telephone at 1-800-405-5320.

LIMITED 5 YEAR WARRANTY AND EXCLUSIONS

Leviton warrants to the original consumer purchaser and not for the benefit of anyone else that this product at the time of its sale by Leviton is free of defects in materials and workmanship under normal and proper use for five years from the purchase date. Leviton’s only obligation is to correct such defects by repair or replacement, at its option. For details visit www.leviton.com or call 1-800-624-3005. This warranty excludes and there is disclaimed liability for labor for removal of this product or reinstallation. This warranty is void if this product is installed improperly or in an improper environment, overloaded, misused, opened, abused, or altered in any manner, or is not used under normal operating conditions or not in accordance with any labels or instructions. There are no other or implied warranties of any kind, including merchantability and fitness for a particular purpose, but if any implied warranty is required by the applicable jurisdiction, the duration of any such implied warranty, including merchantability and fitness for a particular purpose, is limited to five years. Leviton is not liable for incidental, indirect, special, or consequential damages, including without limitation, damage to, or loss of use of, any equipment, lost sales or profits or delay or failure to perform this warranty obligation. The remedies provided herein are the exclusive remedies under this warranty, whether based on contract, tort or otherwise.

WARNINGS AND CAUTIONS

• To be installed and/or used in accordance with electrical codes and regulations.
• If you are unsure about any part of these instructions, consult an electrician.
• To reduce the risk of overheating and possible damage to other equipment do not install to control a motor-operated receptacle, fluorescent lighting fixture, or a transformer supplied receptacle.
• Unplug unit when servicing loads.
• Leviton Wi-Fi® enabled devices rely on Wi-Fi® communication. Increasing the number of Wi-Fi® devices can affect Wi-Fi® performance. Consult the network’s wireless access point specifications to determine the maximum number of supported Wi-Fi® devices. For installations with a large number of Leviton Wi-Fi® devices, a high performance wireless access point capable of supporting a large number of devices may be required.
• Save this instruction sheet. It contains important technical data along with testing and troubleshooting information which will be useful after installation is complete.

INTRODUCTION

Leviton’s Decora Smart™ Wi-Fi® devices are designed to streamline home control using the cloud, apps and connectivity with key industry partners. The my.leviton.com cloud service provides an easy, secure way to control devices from an iOS or Android app, as well as any web browser. After installing your Decora Smart™ device, configure it from the My Leviton app with just a few simple steps. You can create custom scenes to control your home settings. Through the my.leviton.com site you can integrate with exciting and constantly expanding group of third party partners to create a complete home automation system.

Decora Smart™ devices are ideal for living rooms, bedrooms, kitchens, dining rooms, home offices, outdoor lighting or anywhere full control of lighting is desired.

WARNING: TO AVOID FIRE, PERSONAL INJURY OR DEATH DO NOT USE the remote for the control of high power heating appliances such as portable heaters. There can be some unexpected consequences if not used with care. For example, an empty coffee pot can be remotely turned on. If that should happen, your coffee pot could be damaged from overheating. If an electric heater is turned on by remote control while clothing is draped over it, a fire could result. This module will not control lighting that is used with electronic low-voltage and high frequency power supply transformers, nor high pressure discharge lamps (HID lighting). This includes mercury-vapor, sodium vapor and metal halide lamps.

FEATURES

• The Decora Smart™ Wi-Fi® Plug-in Module provides app control and scheduling without the need of an automation hub
• Compatible with my.leviton.com cloud service for device control from a mobile device inside or away from the home
• Over The Air (OTA) firmware updates via the My Leviton App
• Ease of installation - No new wiring

REQUIRED

• Wi-Fi® Network
• Free My Leviton App

INSTALLATION

NOTE: Use check boxes when Steps are completed.

Step 1 Attaching Load to Plug-In Module:
• Attach load plug into module receptacle noting proper polarity of blades. Ensure the load to be controlled is fully operational and in the on position.

Step 2 Attaching Plug-In Module to Wall Receptacle:
• Plug the Plug-In Module into wall receptacle.
• Verify that receptacle is live.
• If controlled by a wall switch, the switch must be kept ON at all times.

OPERATION

- The Plug-in Module can manually control the load.
- With the load ON, tap the control button to turn the load OFF.
- With the load OFF, tap the control button to turn the load ON.

GETTING STARTED

Leviton Wi-Fi® devices use the my.leviton.com cloud service to provide connectivity from your mobile device when you are home or away. If this is your first Leviton Wi-Fi® device, use the My Leviton app or browse to my.leviton.com and setup a free account.

DECORA SMART™ Wi-Fi® SETUP

Leviton Wi-Fi® devices are compatible with the My Leviton App and my.leviton.com cloud service. The app is used to pair your device with your Wi-Fi® network, customize your device configuration and provide communication via my.leviton.com. To control the Leviton Wi-Fi® device it will need to be added to a Wi-Fi® network with Internet access:
- Download the My Leviton App.
- Ensure the Leviton accessory is properly wired and power is applied.
- Upon initial power-up the Locater LED will flash green to show the accessory is ready to be configured.
- If the Locater LED is no longer flashing green when you are ready to add the accessory, press and hold the paddle for 7 seconds until the Locater LED turns amber and release.
- Within the app follow the on-screen instructions or press + to add the device to the Wi-Fi® network and my.leviton.com account.
- Leviton Wi-Fi® devices support Wi-Fi® 802.11 a/b/g/n networks @ 2.4GHz and 5GHz with WPA or WPA2 security.

CHANGING NETWORK CONFIGURATION

In situations where a wireless access point or password is changed but the configuration of the dimmer remains the same, use the following changing network procedure:
- Press and hold the control button for 7 seconds until the Locater LED turns amber and release.
- The locater LED will flash green.
- Open the My Leviton App.
- Navigate to the device.
- On the device page select Details.
- Within the Details section choose Reconfigure Wireless and follow the app instructions.

FCC COMPLIANCE STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation of the device. This equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment OFF and ON, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IC COMPLIANCE STATEMENT

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.
